

## **Testing for Protective Services:**

1. Testing is required for all Protective Services Academy programs  
Police Academy, Fire Academy, EMT and Paramedic
  - a. **Police Academy**
    - Students do not have to complete Math portion, however it is/can be/should be recommended as they will have to do in the future should they choose to pursue a degree later in life.
    - ALL students are REQUIRED to take Accuplacer; there are no waivers accepted for future Police Academy students.
  - b. **Fire Academy**
    - complete all sections of the test
  - c. **EMS-EMT/Paramedic**
    - Complete all sections of the test
2. Testing **is** important...the results will not currently keep a student from being registered, but the scores **WILL** be looked at and **EACH** student will be counseled.
3. Data will be gathered to generate information on placement test scores and their correlation to course completion, course grade, certification/licensing passing rate.

**TESTING IS VERY IMPORTANT AND EACH STUDENT SHOULD BE ADVISED TO TAKE THE TEST SERIOUSLY.**

**January 2010 Paramedic program** – Student will have to be TSI complete to register by passing Accuplacer or completing the PASS program (developmental sequence).
