

NAVARRO COLLEGE QUALIFYING CREDENTIALS BY COURSE/PROGRAM

Accreditation qualifications and rationale: While academic credentials in most cases may be the standard qualification for faculty members, other types of qualifications may prove to be appropriate. Examples could include appropriately related work experiences in the field, professional licensure and certifications related to the teaching assignment, honors and awards, continuing professional development, relevant peer-reviewed publications, and/or continuous documented excellence in teaching. These types of qualifications are especially important in professional, technical, and technology-dependent fields. Qualifications for teaching nontransferable technical courses depend heavily on professional experience and appropriate certifications.
